SUMMARY

Aspiring Full Stack Developer & UI/UX Designer with CGPA 8.6 Skilled in building responsive web applications using Python, Flask, and MySQL. Experienced in translating Figma designs into functional code and familiar with Git workflows for efficient project collaboration.

TECHNICAL SKILLS

Programming Language : Python

Web Technologies : HTML, CSS, MySQL, REST APIs for building scalable web application

Tools : Git**,** GitHub, Figma, Docker**,** ChatGPT

PROJECTS

Employee Management System (Full Stack Web App) – *Python Flask, MySQL, HTML, CSS, JavaScript*
Developed a full-stack web app with CRUD operations, built REST APIs, and implemented a responsive frontend.

Fraud Detection Dashboard – *Python Flask, MySQL, HTML, CSS*
Created a dashboard to detect and visualize fraudulent transactions in real-time, connecting backend APIs to MySQL and designing interactive charts.

EXPERIENCE

DevOps intern – Bics global
- Gained exposure to Git and GitHub for version control and project collaboration.
- Assisted in basic repository management tasks such as code updates and version tracking.
- Observed Docker container usage and deployment workflows in a DevOps environment.

UI/UX Developer Intern – RootPro Technologies
- Designed a responsive school website using UI/UX principles and Figma wireframes
- Implemented the UI using Tailwind CSS to ensure responsive and consistent layouts
- Collaborated remotely with the web developer to align UI designs with PHP-based functionality

CERTIFICATION

Python for data science – NPTEL (2025)

EDUCATION

Bachelor of technology - Information technology - Jeppiaar engineering college , Semmencheri
CGPA: **8.6**
